# Safety Policy

**All rowers (and their parent or guardian if the rower is less than 19 years old) must review and sign this Safety Policy before the rower can participate in any Deep Cove Rowing Club 'on water' activity.**

1. All rowers must be able to swim and tread water for a minimum of 10 minutes.
2. Training sessions will begin promptly, at the scheduled time. Coaches may decide not to boat rowers who arrive late. Coaches will not be responsible for onshore supervision of late arrivals.
3. When carrying a rowing shell to or from the beach, rowers shall maintain a continual watch for pedestrians and other third parties that are at risk of being hit by the rowing shell. Rowers will call out warnings and take any necessary actions to avoid collision.
4. All rowers must be accompanied on the water by a coach, or approved substitute, in a coach boat.
5. Rowers must not proceed beyond the end of the government wharf in Deep Cove until accompanied by their assigned coach.
6. Rowers must stay within sight of the coach boat at all times. Rowers must remain within 500 metres of the coach boat unless directed otherwise by the coach.
7. In the event that a rowing shell must return to shore, a coach must accompany the rowing shell. All other rowing shells under the supervision of that coach must also return to shore.
8. Rowers shall familiarize themselves with docks, rocks and other fixed obstacles in the training or racing area that may pose a risk of collision.
9. Rowers shall familiarize themselves with low bank waterfront landings in the rowing area. In the event of a storm or other unsafe conditions, rowers must immediately proceed to a safe landing area to get off of the water.
10. If a rower accompanies the coach in the coach boat or transfers to the coach boat during a session, the rower must wear a lifejacket.
11. Rowers shall maintain a continual watch for manmade and natural obstacles, other watercraft and swimmers that are in the water and pose a risk of collision. Rowers shall take any necessary steps to avoid a collision.
12. If any part of a rowing session is conducted after sunset and before sunrise, each rowing shell shall carry and operate navigational lights that meet the applicable standards set out in the Canadian government's Collision Regulations.
13. During low light or visibility conditions, each rower must wear an operating flashing light on the head or upper body. Rowers shall be responsible for providing their own lights and must bring them to every training session.
14. Each coach and coach boat shall supervise a maximum of 9 youth or inexperienced adult rowers in a maximum of 3 rowing shells. Each coach and coach boat shall supervise a maximum of 14 experienced adult rowers in a maximum of 4 rowing shells.
15. Coaches are responsible for determining whether conditions are too dangerous to row due to darkness, fog, high winds, waves, ice, cold water, storms, or any other conditions that they determine may be of danger to the rowers. No rower shall contest a coach's decision to cancel or terminate a rowing session due to dangerous conditions. No rower shall be forced to row or shall be penalized for declining to row if they believe the conditions are too dangerous to row safely.
16. Rowing shells shall form groups of two or more where practical. If a rowing shell is swamped or capsizes, the accompanying rowing shell shall ensure the affected rowers are safe (back in the rowing shell or on shore) before going for help. The international distress signal is repeatedly raising and lowering both outstretched arms. Rowers can use their flashing lights to aid in signaling that assistance is required.

**I have read, understand, and agree to abide by the DCRC Safety Policy.**
